All forms of the mystery arts are directly covered or can benefit from the information presented here.

"One of the best books I've read this year. It's so eye opening how RM explains how magic should be presented. 5 stars!"

- **Frank Flores**

"What the author is doing is unique and powerful. That is quite an achievement in this day and age. If you wish to genuinely perform what people perceive as magic then what is written here is simply the truth. This e-book will be referenced and used, it has been much more of a worthwhile spend than any magic purchase I have made in a long time."

- **Ben Williams Magician**

"When I heard that RM was releasing a book, I knew I had to read it, as this guy is thinking outside the box further than most creators! He always forces himself to be both different and extreme. His book doesn't teach any methods but it might inspire you to come up with something truly special and unique."

- **Nico Heinrich**
