

IMMORTAL by Esya G - Video - DOWNLOAD

Imagine that you can stick a sharpie marker through the spectator's chosen card, then slide it and pull it back without any holes at all!

Here is what happens:

Instruct the spectator to choose any card they like, then sign it.

You cover it with a piece of perforated paper and bravely stab the Sharpie through, slide it and pull it back from the spectator's chosen card.

Miraculously the chosen card does not have any holes at all, and it really was the spectator's chosen card!

This is extremely visual, any time and any where

- EASY TO DO
- NO MAGNET and NO ELASTIC
