

An Important Birthday by Jacob Pederson - Video - DOWNLOAD

This trick will make you look like the new Rain Man!

You will be able to guess the age and birthday of a total stranger.

There are some mathematics involved that are so easy that most people will not figure out how you do it.

There is no fake calculator or toxic force involved. This is a completely different trick.

You can do this totally impromptu. It only demands a stranger/spectator with their own phone (which you never touch).

(It may be best combined with other tricks)
