

Punchlines for Kids Parties by Regardt Laubscher - eBook - DOWNLOAD

Over the years I have learned that even a very experienced performer can find himself/herself in situations during a show where you need to stay calm and ignore random things that happen during your show. For the rest of it, speak your mind, but always be respectful. These lines will help you have control over your show and also enhance your professional image.

"I just read the book and there are plenty of good lines/ideas. My favorite are "Balloons Animales" and "Marketing Lines. Thanks Regardt for your sharing !!"
