Magic legend and ground-breaking rubber band artist

"Ultimate Jumping Band takes an old chestnut and blows it out of the water! For everyone who thinks they know it, they will get fried! It is a totally different method that is fast, clean and easy. The final blow off takes the basic effect and brings it to a whole new level. It is similar to something that Japanese Master Shigeo Takagi showed me over thirty years ago, but so much simpler and every bit as effective. It will destroy laymen and magicians alike."

- **Michael Ammar**

Magic legend who is a multi-award winning performer, lecturer and best-selling author

"Jim has taken a classic rubber band effect and made it much more visual, colorful and impossible. It's performable for a large group, and I've watched him perform it many times and the reactions are always amazement!"
