## Insta Bag by Rian Lehman - Video - DOWNLOAD

Find a spectator's card with a clothespin from within a paper bag!

This 'no look' version of card sword is great because it doesn't use ANY sharp objects and doesn't make a mess from throwing the deck. It is comedic, visual and builds suspense. You will love **Insta Bag**! This effect is SUPER easy to learn and can be performed by any skill level magician. Add it to your set for a platform venue or use it for kids shows. It can play to an audience of 5 or 5,000.

Learn 2 different versions of the routine. A non-signed card version and a signed card version. You choose how you prefer to perform it!
