

Cloud Gravitation by Salvador Molano - Video - DOWNLOAD

You carefully place a cardboard cloud on a small mat. The magician places his feet on the cloud and then floats magically into the air!

After he floats back to earth, cardboard cloud is removed and the carpet can be shown.

The gimmick can be activated or deactivated with the same foot.

The secret of the cloud will not be visible but requires a viewing distance of two meters.

Imagine how beautiful and impactful a levitation into the clouds will be!

Download and learn this incredible secret today.
