

The Vault - B3 Envelopes by Radek Hoffman - Video - DOWNLOAD

Read minds like never before!

"The B3 Envelopes is a great approach to mental epic. Radek has applied an existing idea in a really clever way, which tidies up any visual discrepancies that other methods may have. Each divination or prediction is clearly sealed into their own individual, numbered envelopes and the effect is as clear as can be. This is something I enjoy using, and it currently forms part of one of my virtual shows."
