

## Surge by Anthony Vasquez - Video - DOWNLOAD

Two spectators draw a card and it is lost inside the deck. The magician takes out a card containing the word Surge. I ask one of the spectators to press the word Surge as it works as a lever and impossibly the card of the first spectator comes out. But the game doesn't end there, I ask the second spectator to imagine that he has his card in his hand and to throw it towards the magician's card. In an unimaginable way his card appears on the magician's card. He then hands it to the spectator so that it can be examined.

Easy to perform.

Portable and very visual.

Prediction can be customized.
