Make money appear as you pass a card through the deck!

Show a card with a hole punched out of the middle. You can have the card signed if you like.

Now show the round disc, the piece of card punched out from the middle of it. You draw for example 25 cents on the round piece of card. Now you place the disk on the card and pass it through the deck and that little disc has turned into a real 25 cent piece. The Midas touch.

An easy gimmick to make.

Unique plot to perform.
