

The Vault - Floating Deck by Ding Ding - Video - DOWNLOAD

A haunting reveal of a freely chosen card!

A card is selected, signed and shuffled back into the deck. The deck is held in one hand by the performer and mysteriously the top half floats into the air as if by a ghost. The magician grabs the deck and we see that the top half of the deck has separated right at the selected, signed card.

Very unique gimmick and visual approach to a card selection.
