# Ghost Picture by SYZ - Video - DOWNLOAD

A powerful and scary trick from the magician who created the Jarvis secret system!

**Ghost Picture** by SYZ is a powerful and scary trick. This will leave your audience both amazed and scared.

Before the trick, take a picture of thin air with your spectator's phone. Then give the phone to the spectator. The spectator now picks a card while still holding the phone.

Now you look at the spot where you took the picture. You look into the air as if you can see something. And you recognize the exact card the spectator picked!

You tell the audience how it happened. The secret: a ghost told you the name of the card!

Of course, no one believes this. Until they see the picture you took at the beginning...

**Ghost Picture** is mysterious, fun, and can be done anywhere, anytime.

But the best part is that you can do it with a borrowed I phone!
(Just make sure it's an iPhone).

Of course, you don't have to borrow your audience's phones. Perform it with your own phone and it is just as exciting!

**Ghost Picture** is a trick that SYZ has developed for many years.

It's an amazing routine that was created after a lot of thought and tweaking on how to make the audience feel both amazed and scared. It has been carefully crafted, from the construction and design of the trick to every single line of dialogue, for maximum impact.

Not only that, but SYZ also made huge efforts to make the routine practical. As a result, you don't need to download any pictures in advance or do any complicated presets. You can use it anytime, anywhere, with just a single setup.

Setup is only required the first time, which only takes about a minute.

Features:

- You don't have to touch the phone after taking a photo.
- No complicated presets required.
- Can be used anywhere, anytime.
- Can be performed with a borrowed phone (iPhone only)

A magic trick that that will make people smile!

You should try it too!

**Note**:
Whether you're borrowing an audience's phone or using your own, it must be an iPhone to perform.
