

THE CHANGE by Magic Royal and Mr. Pablo - Video - DOWNLOAD

THE CHANGE is the further development of a well-known, very popular close-up magic trick.

The manufacturing of THE CHANG won't cost you a fortune, just the equivalent of a glass of good wine.

With **THE CHANGE**, you can present a fantastic royal piece of art without any difficult handling.

You are able to first make a coin disappear with help of a transparent water glass, and a napkin and then transform this coin into, for example a 2 Euro coin in front of the spectators. All in full view of the glass and a plain napkin.

But that is not the highlight yet. Now you take your shaker with magic salt, sprinkle the glass with the napkin and **THAT'S NOT THERE**, both coins have disappeared!

The audience will amaze with this trick!

Note: explanation video is available in English and German.
