

Viki's CTW System - DOWNLOAD

Have you dreamt of performing CTW in real world with no extra gimmicks, but only a card and a window? And it's better if the card can be signed? If so, this project is for you.

Viki's CTW System is a practical CTW system you can use in real world. Viki Gon has used it for many years and now it's your turn to make miracles for your spectators. Yes, learn it and then you can make a single card penetrate a window anytime and anywhere!
