

## **Pathsilo by Geni - Video - DOWNLOAD**

A deck was shown, spectator freely cut the deck more than half. The Magician deal 9 piles on the table, each pile has 1 card. Now the magician deals one more card from bottom of the deck on top of each pile, and spectator will decide that card face up or face down. Finally, all the pair of cards face up was matched with same colors & same values.

**Let's learn it!**
