

Window changes by Zoen's - Video - DOWNLOAD

"**Window changes**" is a visual effect where a spectator picks a card and signs it. Then, the signed card put back in the deck, Next, a magician picks a random card which is not the spectator's signed card. After that, the magician uses a special card with a window on it. The Magician put it on top of the random card, and with a snap of the fingers, it turns into the signed card!

It will blow the spectator's mind! And they can check out both the signed card and the special one afterward.
