

Vanishing Wine Bottles 2.0 by Wolfgang Riebe (Mixed Media) - DOWNLOAD

Introducing **VANISHING WINE BOTTLES** by WOLFGANG RIEBE (Inspired by Harries Wine Bodega)

A professional feature routine built for real-world working performers.

Six bottles are openly removed from a cardboard wine carton and individually displayed. Multiple bottles can be used to pour real wine, establishing complete authenticity. Each bottle is returned to the carrier.

A spectator is invited to guess which bottle is removed from the carton (with a paper bag over it) placed into a wooden gift presentation box. Whatever the guess, the bottle vanishes completely.

When the magician returns his attention back to the remaining 5 bottles of wine in the carton, they have completely disappeared too. The box is shown unmistakably empty.

No covers.

No switches in view.

No compromise on visual clarity.

A strong, structured routine combining visual magic, audience participation, comedy potential and a powerful multi-phase finish.

QUICK FACTS

- Six Bottles Clearly Displayed
- Each bottle is individually removed and shown cleanly.
- Real Wine can be poured
- Multiple bottles can be used for convincing pours.
- Customizable presentation
- Use local wines, sponsor branding or themed labels.
- Plays Big - Packs small - Shock ending
