

## Digital Flap (APP) by Open Zone - DOWNLOAD

Perform ultra-visual instant changes with your own Bicycle cards. No gimmicks. No complex techniques. Just pure magic.

### What it is:

**Digital Flap** is a groundbreaking AR-based utility that allows you to perform instant, ultra-visual card transformations using your own standard Bicycle Rider Back cards. No gimmicks, no setup, no suspicious moves.

Experience pure visual magic instant, clean, and effortless. Everything happens in real time, with no remote, no screen touch, and no need for synchronization. You're in total control.

Transform faces, transform backs or both. **Digital Flap** gives you complete creative freedom to build the effects you want.

### What they see:

A card changes visually, in full view, with zero motion. No gestures, no cover and the transformed card is immediately examinable.

### More than just a tool:

Use **Digital Flap** to create a wide variety of visual changes or take it further with the included full routine: a modern reimagining of the Color Changing Deck, featuring both face and back transformations in a clean, flowing sequence that requires no sleight of hand.

### Why magicians love it:

- **Total freedom - no timing, no syncing, no pressure**
- Use your own Bicycle Rider Back cards
- Transform faces, backs, or both
