WARNING: This Book Will Force You To Replace All Your Effects

Or Hide It From Your Fellow Performers

Let's be clear - this isn't for everyone.

If you're after a cute little book packed with recycled tricks and feel-good lines about "the power of imagination"... Close it now and head back to your local magic shop.

Marked by Simon is a whole different game.

It's raw, sharp, and precise.

Born as a compendium of original ideas, impossible routines, and clever constructions, **Marked by Simon** takes the marked deck to a whole new level.

This is more than a book of tricks - it's a guide to turning a marked deck into a weapon of psychological impact.

Perfect for magicians and mentalists ready to take their performances into a realm of mystery, sophistication, and unforgettable moments.

Every effect in this book was forged like a blade: lean, direct, and free of unnecessary gimmicks.

The structure is surgical. The language, unfiltered.

And the impact... you'll find out for yourself.

This isn't about decks.

It's about control - without ever looking like you're in control.

It's about seeing everything, even when no one knows you're watching.

Inside, there's no fluff.

You'll find routines that **work**.

Ideas born from the sweat of real-world close-up.

Tested under pressure. Refined through the eyes of someone who doesn't settle for anything less than the impossible.

Each effect in this book carries the DNA of modern close-up and psychological mentalism.

They were crafted for the stage, for the living room, for that moment of eye-to-eye connection.

Born in silence. Tested live.

And now... revealed.

If you've made it this far, it's because something in you knows there's more. Deeper. Darker. Deadlier.

Welcome to the world of **Marked by Simon**.

Don't say I didn't warn you.

WHAT YOU'LL FIND HERE (AND NOWHERE ELSE):

Marking Systems That Defy Logic

"The Flower System" - an invisible method using the existing artwork on a standard Bicycle deck

(yes, you'll turn ornamental roses into an espionage code).

- Instant Read: Identify suit and value in under a second - without touching the cards.

- Spectator-Proof: Markings that make sense only to you.

Routines That Sound Like Lies - Until You Make Them Real

Psychic Strike - A fast and powerful display of your newly awakened psychic abilities.

The spectator freely chooses any card and hides it on their person.

The rest of the deck goes back into the box.

You then name the exact card they've hidden.

Sounds like just another cool trick?

I forgot to mention - you're facing away the entire time.

And you never touch the deck.

Yes, that's the kind of routine you'll find in this book - and we're just getting

started.

4 Spoken Cards - A prediction unlike any other.

You name four cards.

The spectator then randomly selects four cards from the deck.

They're turned over... and it's a perfect match.

No envelopes. No "later reveals."

You predicted their choices before they even made them.

Silent Digits - One deck, four thought-of digits, and infinite possibilities.

In this powerful, practical routine, you'll engage multiple spectators in a stunning reveal of any thought-of PIN, date, or secret number sequence.

A clean, mind-blowing demonstration of pure thought reading - with nothing but a deck of cards.

Single Card Thought Revelation - A classic, taken to a level you've never seen before.

If you've ever wanted to look a spectator in the eyes and tell them exactly which card they're thinking of - no forces, no fishing, completely fair, and without ever touching the deck - this will become your new favorite weapon.

And you'll have everything you need to back it up.

TRIPLE X-RAY - An exclusive routine from (Numerology), now supercharged with new techniques and refined to the bone.

What Happen (And Why This Will Wreck Your Audience):

You turn your back. Completely blind. Zero apparent control.

The spectator:

- Shuffles the deck - however they want.
- Freely selects three cards - no forces, no setup.
- Mixes the three cards face down, not even knowing which is which.
- Hides one in their back pocket (completely out of your reach).
- Places another in their front pocket.
- Holds the last one in their closed hand - completely invisible.

While still turned away, you reveal:

- The exact suit and value of all three cards.
- The precise location of each one - which is in the back pocket, the front pocket, and in their hand.

Third Sight - A stunning variation and surreal bonus that takes the Triple X-Ray concept even further.

You invite three spectators. One of them shuffles the deck.

Each person thinks of a card - completely freely, no forces.

The cards are then located in the deck without your involvement, mixed, and each spectator takes one at random.

You're not only able to reveal exactly which cards were thought of - but also who is thinking of which one, and who is holding which card.

Bonus:

While your back is turned, they can switch cards among themselves - and you'll still know who has what.

A routine that transcends what people believe to be possible.

And now, you can be one of the first in the world to perform this extraordinary mental demonstration.

The Effect They'll Never Forget:

When it's time to close my show, I don't use fireworks or grand speeches.

I use Mystical Incision - a three-act experience so relentless that spectators have approached me asking, "How the hell did you do that?"

Mystical Incision - Here's What Happens:

ACT I: The Number Revelation

- You turn your back.
- The spectator removes a random handful of cards from anywhere in the deck and hides them in their pocket. (No counting. No peeking. No control.)
- The rest of the deck is returned. You never touch it.
- You name the exact number of cards in their pocket.

They count - and it's right, down to the last card. (For most magicians, this alone would be the closer. But here, it's just the warm-up.)

ACT II: Remote Reading

Still facing away, you begin to name the exact cards that were in their pocket. Suit and value. One by one. In perfect order.

The spectator spreads the cards on the table - "7 of Diamonds... 5 of Spades... Jack of Hearts..."

Every. Single. One. Correct.

(By now, phones are out. People are recording. But the real moment hasn't even happened yet.)

ACT III: The Thought-of Card Finale

From the cards you've just revealed, ask the spectator to think of just one.

With their hand covering that card... You look only into their eyes - and tell them exactly what they're thinking.

They lift their hand. The card is shown. The room freezes.

Silence.

Gasps.

Applause? Sometimes.

Other times, just wide eyes... and a whispered, "No. No. No way."
