

Business For Magic - The Magician's Guide to Making Money by Saymon - eBook - DOWNLOAD

Turn Your Passion into a Career and Your Talent into Income

You love magic - but applause doesn't pay the bills.

Have you ever caught yourself thinking:

"Why do other magicians make a living from their art, while I still rely on side gigs?"

"How can I charge what I'm worth without fear of losing clients?"

"Is there a way to get more gigs, more freedom, and more money... without selling my soul?"

Your problem isn't lack of talent - it's lack of **strategy**.

This isn't another trick book. It's the **missing manual** for magicians and mentalists who want to:

- **Position yourself as a premium artist** (and escape cheap gig competition)
- **Fill your calendar with high-paying shows** (from weddings to corporate events)
- **Automate client acquisition** (get leads and close deals while you sleep)
- **Create multiple streams of income (17+ proven methods included)**

Here's what you'll master with Business For Magic:

- **The Sales Funnel** - Attract ideal clients on autopilot (without begging for gigs).
- **Pricing** - Learn to charge for your impact, not the minutes you spend on stage.
- **Business Models** - Multiply your income streams with your magic.
- **Digital Tools to Scale Your Time & Image** - From social media to automated contracts.

"The world's top magicians aren't the most technical - they're the ones who realized that talent without business becomes a hobby. And hobbies don't pay bills."

- Simon
