- Magic with the spectator's phone.
- Multi-effect and multi-method.
- No technique or experience required.
- Over 2 hours of ideas and routines.

Control their phone and you control their mind.

With this application you can perform all kinds of divinations and predictions on the viewer's phone.

It is a versatile tool, with multiple effects and methods, with new systems never seen before.

You will be able to perform miracles impossible to achieve with any other application on the market, being able to do magic even without carrying your phone with you.

Integrated artificial intelligence

An artificial mind acts as your new invisible accomplice, understanding, reacting and deciding within the effect itself, as if it were a super-intelligent assistant helping you to improve your effects.

Thanks to this integration, new effects arise that were impossible to perform until now, a world of possibilities never seen before in magic, for example:

- A spectator thinks of a city, and the magician predicts the geographical coordinates.
- The magician makes a prediction and the spectator thinks of a famous person, on revealing the prediction it does not match, but on checking their date of birth the birthday matches.
- The magician makes a prediction, one person freely thinks of a product, another person searches for a country, the prediction turns out to be a product from amazon, which matches the product thought of and which is

bought in the country thought of.

Divinations and predictions without limits.

Divinations: Imagine asking the spectator to take out their phone and think of a country, a famous person or a letter, and look it up on the internet. Then, the magician concentrates and guesses what the spectator was thinking of. This effect can be performed with 2 or more spectators.

Predictions: Ask a spectator for their phone, open the browser and type in a prediction. Then, ask the spectator to think of a famous person, a country or a card. When the spectator turns the phone over, you reveal that the prediction matched their thoughts.

Multi-effect and multi-method.

With up to 4 working modes, you can perform all kinds of effects on any web page, such as social networks, YouTube, Wikipedia, Google, Amazon, etc.

Spy: Spy on the viewer's phone searches.

Control: Control the viewer's phone and predict anything free-form.

Screen mirroring: Duplicates the viewer's phone screen and allows you to secretly view their screen or perform searches on their phone.

Bluetooth: Control the APP through the Appmazing Thumb Controller, allowing you to play all games without touching your phone.

COMPATIBLE APPS

ATC compatible.

ATC is a state-of-the-art bluetooth device that is hidden inside a fake thumb.

- You will be able to control the spectator's phone completely invisibly, remotely and from your fingertips, being able to predict anything. ATC will do all the work for you.
- You will be able to communicate secretly and in real time with a medium

who can be anywhere in the world. You will be able to perform remote divination effects, creating routines impossible to date.

- You will be able to secretly ask questions to your assistant, who can be anywhere in the world answering you, receiving information unknown to the magician. For example, you can ask what day of the week a spectator was born.

Compatible with smartwatch

You will receive a real-time notification on your smart band with the search that the viewer performs on their phone.

Currently, there are smart band models available for less than €20 with a battery life of more than 20 days.
