

The Jumping Aces by Markus Tervo - Video - DOWNLOAD

A multi-phase Ace routine with a playful plot and a killer ending.

Phase One: The four aces impossibly jump from the deck into the magician's pocket.

Phase Two: The plot shifts into a playful cat-and-mouse sequence, inspired by the classic Conus Aces. At the end the magician tears the corners of the aces.

Phase Three: Even in their torn state, the aces continue to jump back into the pocket - with a cheeky kickback that gets laughs and gasps.

Phase Four (Finale): One by one, the torn aces vanish... only to reappear in the most impossible place of all - inside the spectator's own pocket!

Jumping Aces combines classic card tricks from Conus and Hofzinser into a routine with audience interaction, a fun plot and a strong climax! This isn't just another ace routine - it's a full performance piece: **The Jumping Aces!**

What you get:

- Over 1 hour of in-depth video instruction
- A full live performance of Jumping Aces
- Step-by-step guide to making the simple gimmicked cards
