

Suave Links by Milo Belamorte - Video - DOWNLOAD

"This is a unique exploration of innovative moves that will enhance any of your current ring routines. For the serious student of linking rings, this is a welcome addition to the possibilities of this timeless classic!"

- **Jeff McBride**

"After I have watched Milo's 'Sharpie Evolutions Lecture', which is filled with very clever and useful ideas and techniques, I expect the same of his new lecture with the linking rings. I was looking so hard for the secret. But even when I know it, I couldn't see it. Milo puts also some pantomime additional on top, which makes it look like the rings are really penetrating!"

- **Miles Pitwell (Professor of Magic)**

"Suave Links is top-tier Ring work at its finest. The moves are incredibly smooth and elegant, executed with flawless precision."

- **Joshua Messado**

SUAVE LINKS: VARIATIONS ON CLOSE UP LINKING RINGS BY MILO BELAMORTE

Suave Links is a very visual sequence of links and unlinks that uses only two rings. It presents an innovative grip that allows beautiful solid trough solid effects and new displays.

But this video download does not only focus on giving a detailed explanation of the techniques, Milo has taken the opportunity of this project to investigate and share general information about the Close Up Linking Rings such as their history, important exponents and references. Also, Milo shares in an extensive manner his favorite way of structuring and presenting a full routine of Close Up Linking Rings for live audiences at magic shows.

*To perform the **Suave Links** techniques, you will need two rings (the standard ring and the k*y ring) that come in almost every Close Up Linking Rings Set (such as Ninja Rings, Messado Rings, TCC Linking Rings, and others). The only requirement is that you'll need to be able to hold the circumference of the ring with your five fingertips.
