

Lion by Nikolas Mavresis - Video - DOWNLOAD

"LION" is a fun, dream-inspired miracle that always gets a great reaction.

You tell your spectator about a strange dream you had: you were staring into a mirror and saw four letters glowing back at you... L I O N.

They write it down... unaware that this simple word is about to control everything.

A card is freely chosen and lost in the deck.

Then you bring the focus back to the mysterious word.

And here's where it gets interesting...

With a twist (literally), you show them that when LION is rotated... it becomes NO17.

They count down to the 17th card themselves...

...and it's their card.

A weird, playful, almost impossible moment of dream logic made real.
