

## IG Force by Damien O'Brien - Video - DOWNLOAD

Force ANY Instagram image using the real Instagram app - directly on your spectator's phone. No apps. No links. No suspicious setups.

Imagine revealing a thought-of Instagram image with impossible accuracy... while everything happens on their own device using the actual Instagram app.

**IG Force** is a powerful digital magic effect designed for magicians and mentalists who want modern, organic-looking miracles using a platform people already trust and use every day.

Unlike many Instagram forcing methods, **IG Force** removes the usual barriers:

- No extra magic apps to install
- No strange browser URLs or awkward workarounds
- No phone linking or complicated setups
- Uses the real Instagram app
- Happens on the spectator's own phone
- Fast, clean, and highly deceptive
- Perfect for close-up, social media, and casual performances

This creates an incredibly natural experience because spectators believe they are freely interacting with Instagram exactly as they normally would - making the outcome feel impossible.
