Some of the Best Cardivances by Alejandro Guillier - DOWNLOAD

Some of the Best of Cardivances is more than just a selection of some of the finest routines from the book Cardivances. It is a standalone video experience featuring new variations, refinements, and improvements to the original material, offering fresh possibilities for these already powerful effects.

The material includes signature transpositions, a Matrix routine with a handkerchief, card transpositions, assemblies, and much more.

If you're looking for practical, powerful, visual magic with clever and intriguing methods, this is a great opportunity to dive into Alejandro Guillier's creative world and discover a collection of truly original magic.

Experience these close-up magic routines performed live by their creator, and discover new ideas and subtleties that take the original material even further.

"I recently purchased Alejandro Guillier's new book, Cardivances, and have watched several performance videos from it. Cardivances delivers an outstanding collection of card and coin magic. Alejandro draws inspiration from beloved classic plots while introducing innovative new effects, elevating each routine with original methods, thoughtful construction, and refreshing presentations. This collection will inspire and reward any serious magic student."
