

## Rising Card Deck (Red)

--Blaine Watch--

---

The Rising Card trick was featured on David Blaine's Street Magic Special.  
*Effect*

A spectator freely selects any card from the deck, it's then remembered and replaced in the deck. The deck may then be cut by the spectator before it is either held by the magician or placed into a glass or leaned against any other object. Seemingly on command, the spectator's freely chosen card then rises out of the deck!
