

Spring Wand

Here is a super funny item, an excellent alternative to the famous "Break-Away Wand" routine. The magician holds a solid magic wand, but all of a sudden it starts swinging to the left then to the right, and bending downwards.

100% laughs!

- The wand is cm 40 long (in. 16) and has a diameter of cm 1,5.
- Perfect for lots of jokes, suitable for both adults and children.
- No skill required.
