

## **Bicycle - Archangels by Tom Lane**

Good and Evil. Right and wrong. Light and Darkness. All this is enclosed in the Bicycle Archangels.

Inspired by mythology, handmade, and ripped from the pages of legend, comes a new beautifully designed deck. A confrontation between good and evil, these cards show an epic battle between angels and demons. Looking closely at the back designs you can see the story of these two opposing forces. The angels on the left, and the demons on the right. The illustration took six months of painstaking work using ink and pen. The result? Epic. Archangels contains original artwork on the box, a new Joker and ace of spades.
