

Naked (Gimmick and DVD) by Salvador Sufrate and Bazar de Magia - DVD

NAKED is a very clever idea with a gimmick that works flawlessly to create a visual and impressive card change.

Effect: A card is freely picked and then signed by a member of the audience. The card is then lost in the deck. The magician tries to locate it and shows the card. Unfortunately the magician cannot seem to get it right. The magician puts the wrong card between his lips, he turns around completely and when back, the card picked by the spectator pops up between the magician's lips. The spectator can keep the card as a souvenir.
