

Fake Lemon by Quique Marduk - Trick

This special Fake Lemon is made of PVC and it is a great advantage, it is not painted, the color is forever, and heat doesn't hurt the material, like on latex.

With it, you can perform a lot of magic effects and gags. Perform the vanishing lemon place it into a paper bag and crushing it. Use it for the Orange, lemon, egg and canary trick, and many other effects. I recommend to see "Watch the lemon" trick on Talbell Course in Magic, volume 5, page 75, a wonderful parlour trick by **Bert Douglas**
