

## HD Thumb-tip by Alan Wong - Trick

From the creative mind of Alan Wong comes an all new *HD Thumb-tip*.

Thumbtips aren't designed to be seen, but that doesn't mean they shouldn't look as close to your actual thumb as possible.

Therefore, **Alan Wong's HD Thumbtip** is a perfect solution; he has designed a thumbtip with painstaking detail to match the curves and contours of a real thumb. It works exactly like a normal thumbtip (*one of magic's greatest secret gimmicks*) but will remove some of the restrictions of keeping the tip hidden at all times.
