

Sponge balls - Balls of 40 mm

If you have always loved sponge balls we are sure you will find this set of a good quality and will appreciate the softness of them. The effect is a classic in magic: three sponge balls transfer one at a time, mysteriously, from the magician's hand to the spectator's one, and then from his pocket to his hand in a mistifying sequence. • Excellent quality, nice to see and to feel. • You are supplied with 4 balls and the instructions for two routines: a basic one and a professional one.
