

## The Clarity Box by David Regal - Trick

Card to canister... with a *clear* difference.

When unveiled at The Magic Castle, magicians returned over and over to watch the moment that seemed impossible... when a card that had been isolated within a clear box turned out to be a spectator's signed selection.

The folded card was never out of sight. It was spilled out of the box and cleanly unfolded, yet it was the signed card.

That, in essence, is **The Clarity Box**. The object need not be a card. It can be a signed bill, or a prediction - truly a utility prop.

This twist on Bruno Hennig's classic card-to-canister effect possesses a clear difference: The object that is to be visibly spilled from the container is in plain view at all times.

The quality of The Clarity Box is exquisite. Custom-fashioned from thick, sparkling acrylic it has the look of a miniature museum showcase.

- The Clarity Box is practical. Its base measures only 2x2.5 inches - place it anywhere. And it resets in a second.
- The Clarity Box is customizable. Use supplied design ideas or make up your own.
- The Clarity Box is simple. You will enjoy watching yourself demonstrate it in front of the mirror... and be amazed.

**Contains:** One custom-made Clarity Box, folded card gimmick, extra blank gimmick (for customization), art for design options, instructional DVD.

"David Regal's Clarity Box is the most magical revelation of a playing card I have seen. Trust me on that."

- **Dean Dill**

"Every once in a while, magicians strike gold. David Regal has created and produced the perfect close-up illusion."

- **Jim Steinmeyer**

"There have been several versions and improvements on the Bruno Hennig card box, but David Regal's version is one that I feel Bruno himself would highly approve of. It takes the effect to a different level. I'm certainly going to use it and if Fred Kaps were alive I'm sure he would do so also. It's the ultimate answer to an already ingenious revelation."

- **Johnny Thompson - aka The Great Tomsoni**

"The illusion is so complete, your brain will not even think 'switch'."

- **John Bannon**

"One of my favorite tricks made better by one of my favorite magicians. Regal's take on the Card in the Box effect is shear genius."

- **Mike Caveney**

"Brilliant. So good you'll perform it for yourself."

- **R. Paul Wilson**

"Regal has done it again. The Clarity Box is clearly amazing and utterly, totally, 100% fooling."

- **Andy Nyman**

"I am very impressed by the thinking that went into The Clarity Box. David Regal is diabolical."

- **Lance Burton**

"David has taken a major step forward with Clarity; he's really thinking "inside the box." Nothing is hidden, everything is transparent - except the method! Bruno Hennig and Fred Kaps would themselves have been fooled."

- **Simon Aronson**

"Illusions are never clear; this must be magic."

- **Dave Buck**

"With The Clarity Box, David Regal has taken a classic trick that was already perfect... and made it BETTER."

- **John Lovick**

"This is really clever. I want one!"

- **Eugene Burger**
