

Light in the Rose - Standard

The magician enters the stage with a rose in his hand. Suddenly he seems to notice something in the air, and then he captures a bright red light at the tips of his fingers. The light is thrown towards the rose, and magically appears inside it! After this beautiful effect the magician blows on the rose, and makes the light disappear.

- The rose is 26 cm (10,2") long.
- It is possible to change the battery.
- Only the rose is supplied in this standard version. The gimmick for catching the light on your finger tips is supplied with the Plus version.
