

Pan - Aluminum - Big - Double load

The effects achievable are many. For example, put a little 'flour and yeast in the pan, close it for a moment with the lid and magically bake a cake (real or fake). Another effect: put a little lighter fluid in the pan and then set it on fire, put the lid on to extinguish the flames and when you reopen it... the pan is filled with sweets popcorn or other surprises!

- The pan has a diameter of 21.5 cm.
- This model has a double load, therefore, so you can make two loads appear one after the other!
