

Lock Box - Mini - Standard

After vanishing the spectator's ring (or any other small object) you introduce a small wooden box. The box is completely closed and locked with a padlock. It can even be handed out to the spectator as he will not be able to find anything suspicious about it. You then hand the spectator the key to unlock the padlock and ask him to open the box. Inside it he will find his previously vanished ring!

- The wooden box is handmade and measures cm 5,8 (2,3") x 6,7 (2,6") x 5,2 (2").
