

## **Squeaky Salt Shaker by Alan Wong - Trick**

### **Squeaky Salt Shaker by Alan Wong**

"Finally... a magic salt shaker with a funny voice! Fred Kapps used a version of the Paul Potassy magic salt shaker for misdirection..and I bet if Fred had one that 'squeaked' he would have used it in every show! This unique comedy prop will enhance your show and give you added comedy and misdirection at the moment you need it most" - Jeff McBride Las Vegas Headliner.

This crystal squeaky salt shaker is a comedy prop when you run out of magic dust, act as a magic wand for misdirection, a reason to go in and out of your pocket with your hands when you ditch or load things into your hand. The legendary Tommy Wonder used a similar crystal glass squeaky salt shaker in his Deja Reverse routine.

Each one hand painted white inside with a squeaky device always ready to serve your magical moments, without actually spilling any salt!

Crystal salt shakers are made in the USA.
