

Card Fountain by Dave Powell - Trick

EFFECT: Magician removes the entire deck of cards from the case and set the case on the table in front of him. He performs any of his usual card tricks and then returns the deck to the case. **Suddenly and without any strange moves the cards fly out of the case in a streaming fountain**, at which time he can catch a selected card out of the air or perform any card stab routine.

The possibilities are endless with the use of this precision made gimmick. Entirely self contained, the gimmick is made to fit into any poker size card case.
