

Ulti-Wine Glass by Visual Magic - Tricks

One of the most innovative new effects on the magic market today. This ingenious gimmicked wine glass design comes from one of the David Evangelista's own special routines using roses and wine.

The magician is seen holding a white rose. He then takes and breaks the head of the rose off and turns it into a white silk streamer. Later in the routine, the magician takes and pours a glass of wine from a wine bottle. He then takes the broken rose stem and dips it into the glass of wine. Upon removing the stem from the glass of wine, the stem emerges with a beautiful red rose on the end.

Multitude of other ideas/routines can be performed with this utility glass. You are only limited by your imagination.
