

Trespassing by Smagic Productions- Trick

What is **Trespassing**?

An incredible, moving effect!

This trick looks so great that it resembles a special effect, and leaves an amazing impression on your audience.

We call it **Trespassing**.

Your spectator can see the effect throughout, as it's quite visual. Yet, they can verify that it actually occurred right after the performance without a hint of the secret!

Just imagine -- you place a piece of a card, or a folded money bill, on top of an ID holder. Just pass your hand over, and it immediately goes inside the ID holder!

Fast, clear, and visual.

Your spectator may open and check the ID by themselves. They won't discover anything, as this is a completely regular ID holder!

More important, your hands are totally empty and clean.

Simple, yet elegant.

It's easy to perform -- no complicated skills needed.

You could use this ID holder normally for yourself and do the trick suddenly anytime, anywhere. Moreover, you could reset and redo the trick over and over again.

Check it out!
