

Devour (DVD and Gimmick) by SansMinds Creative Lab - DVD

One of the most important aspects of magic is establishing a connection with the spectator. Magic should be for all age groups, and we are proud to present an effect that can connect with everyone.

Devour is a fun and interactive card revelation effect that can connect with all age groups.

Imagine that the box of playing cards comes alive, and destroys all the cards in the box except for the signed card!

The selection is a completely free choice, and the presentation is 100% customizable to cater to your personal style.

Check out the trailer to see how this great effect can enable you to connect with YOUR audience.

- *Gimmick supplies included
