

Odyssey by Calen Morelli - Diameter 18 mm

A ring visibly jumps from finger to finger, hand to hand. A hyper-visual miracle years in the making. A ring is fairly placed on your index finger. In a split second, the ring visibly JUMPS to your thumb. But that's just the start. The ring is then fairly and openly placed on your middle finger. Don't blink or you'll miss it - the ring impossibly TELEPORTS to the ring finger - of your OTHER hand. With a single wave, the ring melts through your finger into your open palm. The best part? It's EASY to learn - the handcrafted gimmick does the hard work for you!

A hyper-visual miracle from Calen Morelli
