

## World's End by Takahiro - DVD

Prepare to be mesmerized!

We are proud to present TAKAHIRO's coin magic work collection - his new **World's End** DVD.

Six amazing works created with extraordinary creativity.

The routines are beautiful to behold, and impossible to believe - truly, this must be magic. Coins disappear, appear, transform, change location, all in the blink of an eye. One moment, you're looking at a Chinese coin with a hole in it - the next, it's entirely something else, and no hole of course! There's even a Matrix routine using TRANSPARENT cards - and it still produces gasps!

Your audience will be astounded, sometimes in stunned silence, other times offering loud applause for a performance well enjoyed.

Common sense cannot explain the miracles unleashed upon your unsuspecting audience. Only imagination and pure enjoyment. Genius has gone into these routines.

Although the difficulty is high, you will surely reap the rewards of this learning.

Includes 6 marvelous routines:

- Shadow
- Spellbound
- Stealth
- Three Coins
- World's End Chink-A-Chink
- World's End Matrix
