

Re-Volution by Jimmy Strange - Trick

PK effects are powerful demonstrations of magic. And there's no better demonstration of using this power than with the self-winding nut and bolt.

But **Re-Volution** takes this to a whole new level. The magician can choose to not even touch the nut and bolt -- he simply takes his pair of tweezers and picks it up to show it's completely hands free.

With the bolt either pinched between the tweezers or the magician's thumb and finger (either method is unbelievable to watch!), the magician focuses his mind on the nut as it begins to wind itself up or down the bolt.

"This is awesome, practical magic at its best."
