

## INKLING by Abdullah Mahmoud - Trick

An effect so visual, so impossible, one could only describe this as a camera trick - except it isn't. **INKLING** creates a visually stunning moment of magic, as the ink on your skin appears to instantly move on your command!

Sample effects:

- The ink on your skin changes from one drawing to another
- Two drawings on your skin merge into one
- The drawing disappears and instantly becomes an actual 3D object

From the mind of Abdullah Mahmoud, **INKLING** creates a perfect opportunity to grab an onlooker's attention, whether on the street or on Instagram. Because of its fast pace, it will hook even the most distracted passerby.
