

Chris Kenworthy and Mark Mason Present EYEPHONE (Gimmick and Online Instructions) by Alan Boyd - Trick

THE REALLY, REALLY SMART PHONE.

**THE TRICK EVERYONE WAS TALKING ABOUT AT THE BLACKPOOL
MAGIC CONVENTION.**

In July 2017 I sat down with Chris Kenworthy to discuss bringing the EYEPHONE to the magic community.

It's now Feb 2018. Almost 8 months of development work with different phones, designs and engineering has brought us to the final **EYEPHONE**.

I truly believe this is one of the best peek devices I have come across in my 30 years of magic. It **TICKS ALL THE BOXES**.

The magician removes their phone, asking the spectator if they too have a cell phone. (Who doesn't have one these days?) A business card is removed from the credit card holder attached to your phone.

You now ask, if like you, they have a list of contacts on their phone. They write down **ANY** contact on your business card. It can be a person, a place, **ANYTHING**.

The card is kept face down and slid back in among your credit cards. You really cannot see the card at all.

WITHOUT ANY QUESTIONS OF ANY KIND, you can reveal the exact person or place they thought of.

As much as I would like to, I cannot write the method here. Let's just say the method for this effect, is the perfect application for this product.

It really is unbelievable how good this prop looks.

I mentioned earlier about **TICKING** boxes.

PROFESSIONAL LOOKING PROP - TICK

EVERYDAY OBJECT - TICK

BRILLIANT METHOD - TICK

ANY LANGUAGE - TICK

NO QUESTIONS - TICK

NO RESET - TICK

NOTHING TO BREAK OR REPLACE - TICK

SUPER EASY - TICK

Your EYEPHONE comes complete with a total of 15 ideas and routines.

Please note - Although this looks exactly like a cell phone, this is NOT a working Phone.

Chris and Mark would like to thank Bob Swadling for his help in the engineering of the **EYEPHONE**.

"That is just great!"

- **Bill Herz**

"That is so good, I hate you."

- **Chad Long**

"Boy WHAT an idea, you have hit a home run with this."

- **Brett Barry**

"I cannot @%%#!&% believe it!"

- **Etienne Pradier**
