

MR LIFTO (DVD and Blue Gimmicks) by Ryan Schlutz and Big Blind Media - DVD

MR LIFTO is a self-working slab of uber visual magic. A card is selected and lost in the deck. A heap of random cards are taken from the deck and piled up on the table. You gently rub your hands together to 'generate some static charge'!

Then you place your hand on top of the stack of cards, and slowly, incredibly as you lift your hand upwards, **THE CARDS ARE STUCK TO YOUR HAND!**

There is no visible means of support - yet the cards are stuck.

Suddenly the cards drop to the table. All except one. Their selection.

Powerful, visual magic that is super easy to perform.

Comes with special gimmicks included. Just a grab a deck and you're ready to go!

- Simple setup that can remain in place all day, waiting for a chance to perform
