

Off the Wall Playing Cards by Art of Play

These rebel playing cards are inspired by '80s surf and skate culture in sunny California. The radical design is **Off the Wall** and bursting to be used for magic or for playing!

Their mix of abstract, bold, and colorful shapes are as fresh for your next card game as they are for cardistry - the wild intermix of colors really pops when cardistry artists show off their moves!

This limited-edition deck features a borderless back design, oversized court cards and a vibrant tuck box printed with shiny silver foil.

Designed in South Africa by Studio Muti. Printed by the United States Playing Card Co. on our trademark thin stock preferred by cardists.
