

Flash Deck Switch 2.0 (Improved / Red) by Shin Lim - Trick

****Note:** this is the second and improved version of flash deck switch. This gimmick comes in Bicycle Red Tuck Box. **

Have you mastered the art of performing a range of effects with one deck? Or are you a novice amazed by how a single deck can be used in various ways? Whether you are a beginner or expert, imagine how much more fascinating it would be to manipulate two decks at the same time right under your spectators' noses. There you will have an infinite amount of effects you can fool the audience with and no one will notice that you were switching between two decks repeatedly the whole time.

The Flash Deck Switch allows for a smooth and seamless switch between any two decks of your choice, while the gimmick hides in plain sight, completely undetectable. Imagine performing miracles with a gaff deck, and at the end of your routine, silently switch it for an ordinary pack of cards. Your spectators will inevitably marvel at how you managed to perform such amazing feats with just a regular deck.

Accompanying the Flash Deck Switch comes an exclusive 60 minute tutorial from Shin Lim, where he will discuss different routines and sleights. He also teaches you to modify your already existing gimmick to make it accompany any custom deck of cards(besides the classic bicycle design) and how to perform various tricks by handling your decks differently.

The Flash Deck Switch, created by Shin Lim and Rich Piccone, is one of the cleanest and best deck switching devices out there -- and its finally ready to be yours soon!

Christian Engbloom: "I love the deck switch! It's wonderful. I want 2!"

Dan Hauss: "this is cooler than cool. I love it"

Mike Hankins: "Deck switch, what deck swi...oh sh%t"

Eric Jones: " ****, I want one right now"

Jesse Feinberg: " **** me sideways, that's clever"

Jason Brumbalow: "I would say this deck switch is off the chain, but I never saw the switch, 3 different times... which is the point. Great work."

"Kill me now. This is so good."

- Will Tsai

"All I can say is WOW!!! This utility device is seriously one of the best I have seen and will def be using! SO CLEVER! I wish I had thought of this!"

- Danny Weiser

"I love the flash deck switch ! Fooled me completely. I love that it can be done in the hands and on the table. And on top of that it resets instantly."

- Joshua Jay

Eric Stevens(Author of Happenstance): "An absolute beauty of an idea. You WILL use this."

Tom Elderfield(creator of Insight): "Wait, I don't get it. Did you just switch the decks! That's insane!"

Lyndon Jugalbot(Creator of Unwritten): "Very Clever and Deceptive! I love it!"

Casshan Wallace(Creator of Melt): "The Flash Deck Switch is very creative! I thought I knew what was going on and then found out I was completely wrong. I love when that happens! So many possibilities with this! Great job!"

Lance Sinclair: "Invisible. Clever. Unique. And Simply Ingenious! This is what happens when two great minds come together - A secret weapon that you will incorporate into your act immediately!"

"I hate Shin Lim. Seriously, several years practicing my misdirection, timing and card work for an effective deck switch, and he wipes it all away with single, practical, and clever device!. I could have spent all that time with my family and friends, I'm crying as I write this..."

- Dominic Reyes

"Daniel Rhod created The 'Topological Deck Switch' and had written

instructions(no gimmicks) and appeared in Mephisto's 1991 catalogue. It did not inspire The Flash Deck Switch but has a similar handling."
